33 – FYI – NEW ULTRA-LEATHER HEADBOARDS. Cathey and I read for two or three hours each night. We always prop pillows behind ourselves for comfort and to prevent soiling the headboard's cloth fabric. Alas the fabric Tiffin used to cover our headboard has not lasted as we had hoped it would. The surface of the fabric looks like it has sagged downward due to pressure from the pillows we lean against.

Looking close you can see where the lower portion of the diamond shape is discolored and pulled down.

After discussing this situation between ourselves, Cathey and I decided to have Tiffin replace the fabric with ultra-leather rather than to have this situation occur again. We spoke with Pete and Rita after thinking it over we agreed to pay for the Ultra-leather material and sales tax for Tiffin to make us a complete new set of headboard inserts. Total cost was just a little over \$ 180.00.

Below is a picture of what the same side looks like done in Ultra-Leather.

We are happy with this upgrade, even with paying for the Ultra-Leather material to be used for covering the three panels.
