NINETY-FOURTH - coach modification – **CLOSET SHOE ORGANIZERS**. While performing a seasonal cleaning out and re-loading our wardrobe and shoes we came to the conclusion the shoes could use a little more organization. Later that day while in Lowe's we took the time to look at construction materials to build a shoe organizer. Cathey suggested we take a look at the already built and ready to assemble shoe organizers. Turned out they had a 15 cube Cherry stained organizer on sale for under \$ 28.00, so we purchased two of them. Now Cathey has storage for 15 pair of shoes while with my short WIDE feet I have room for 7 1/2 pair of shoes.

With two organizers we were able to allow vertical space between the two organizers, at the same time space on both sides of the organizers for boots and other long hanging items like robes, rain coats and a few long dresses for Cathey as we always carry clothing just in case of a wedding or funeral.
