NINETY-EIGHTH coach modification **DOOR STEP MUD FLAP.**

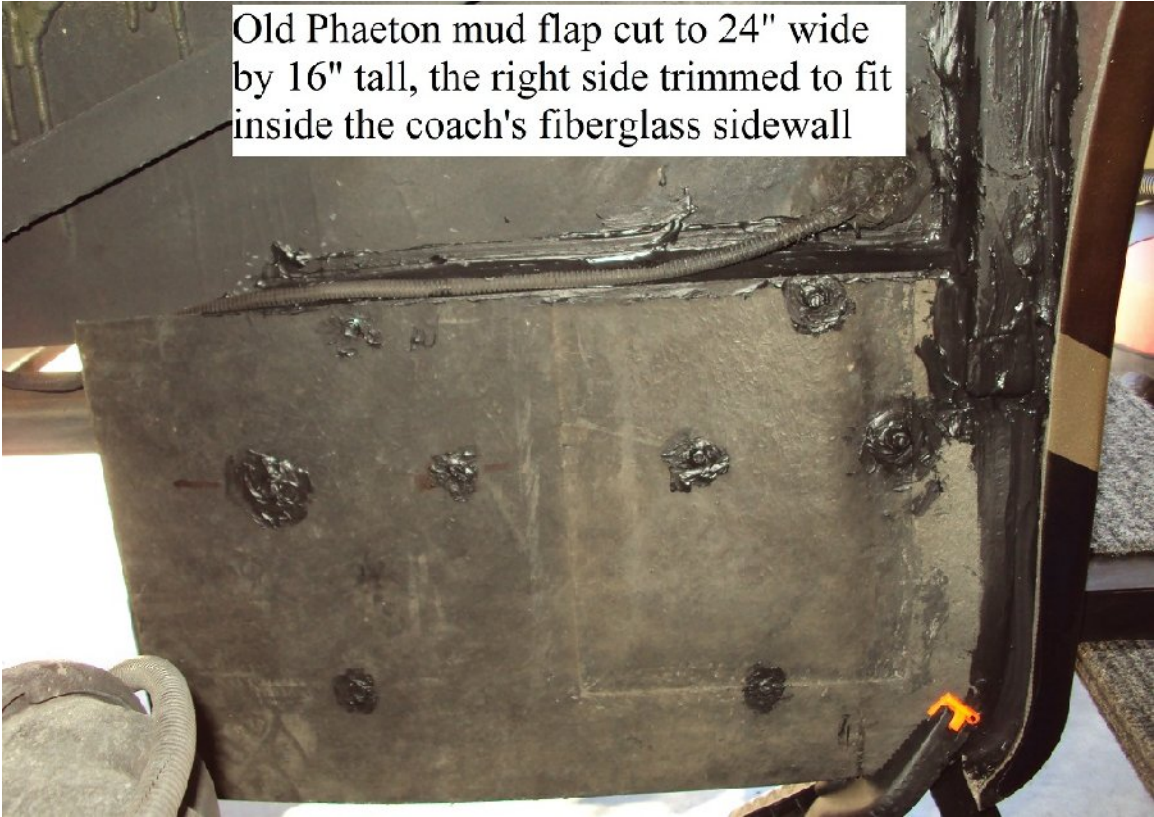

This photo shows the Tiffin installed guard to prevent mud and other debris from getting on the steps, the guard is show inside the **GREEN** box.

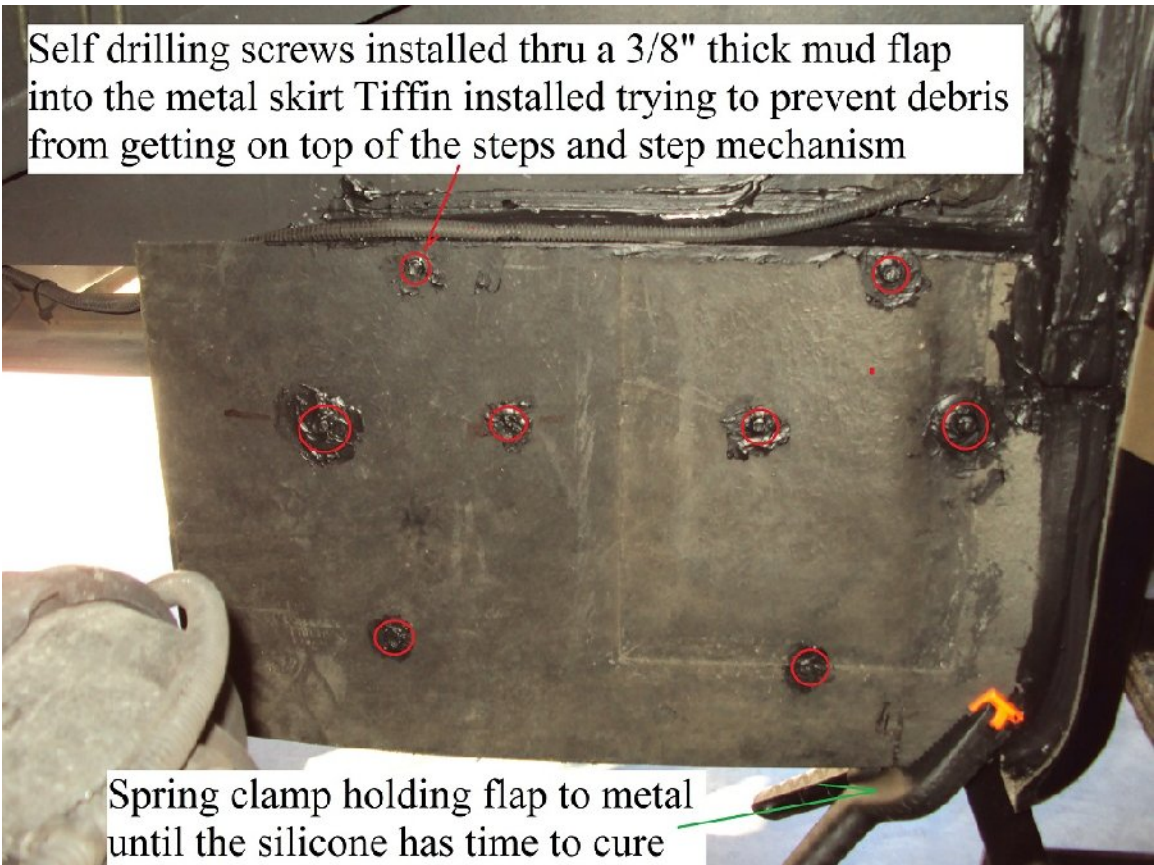

Step areas open to mud and debris are shown in **RED** above and below.

Old Phaeton mud flap cut to 24" wide by 16" tall, the right side trimmed to fit inside the coach's fiberglass sidewall

Self drilling screws installed thru a 3/8" thick mud flap into the metal skirt Tiffin installed trying to prevent debris from getting on top of the steps and step mechanism

Spring clamp holding flap to metal until the silicone has time to cure
